

# Company Profile

**Smart Communications, Inc.**, has two decades of experience in language simplification, software development, technical writing and computer-aided language translation.

The **SMART** software uses *artificial intelligence* techniques for Language Simplification, Text Mining and Computer-aided Language Translation. **SMART** has an experienced team for Electronic Publishing, eGovernment, Six Sigma and global Supply Chain Management.

We are the developers of the **MAXit Checker** for text critique. We offer services for **ASD Simplified Technical English** (aerospace) and **Controlled English** for other industries.

## SMART Software

The **MAXit Checker** helps technical writers learn the language simplification techniques and vocabularies. The **MAXit Checker** is a “plug-in” for Adobe FrameMaker, Microsoft WORD, Just-Systems XMetaL DITA and Arbortext Editor.

The **SMART Text Miner** extracts terminology from texts to create dictionaries for the **MAXit Checker** and the **SMART Translator**. Ideal tool for eDiscovery and multilingual support.

The **SMART Translator** is a computer-aided program that translates texts from **Controlled English** into European languages. Others by Special Request or project.

The **SMART Lexicon Manager** is a software tool to manage technical dictionaries.

## Custom Translation Software

**SMART** offers computer programming and consulting services to customize the **MAXit Checker** and the **SMART Translator**.

## SMART Technical Services

**SMART** offers technical services, consulting and training to implement **Simplified English**, **Plain English** and **Controlled English** programs. These services include writer training and how to use the **MAXit Checker**, **Lexicon Manager** and **SMART Translator**. **SMART** offers services to compile multilingual product dictionaries, taxonomies and glossaries.

**Controlled  
ENGLISH**

**SMART** provides the following services:

- Programming in C/C++ for Windows, Unix Sun Solaris, Linux, HTML, XML, Java, COM+, Adobe FrameMaker FDK and Arbortext and Content Management Systems.
- Text Mining services and linguistic analysis.
- Electronic publishing and eLearning courseware.
- Translation, localization and globalization services for custom software, Help Desks and Call Centers.

**SMART** is a leader for **Controlled English** consulting, software, technical dictionaries and writer training.
